

Sample Email Notification Pages

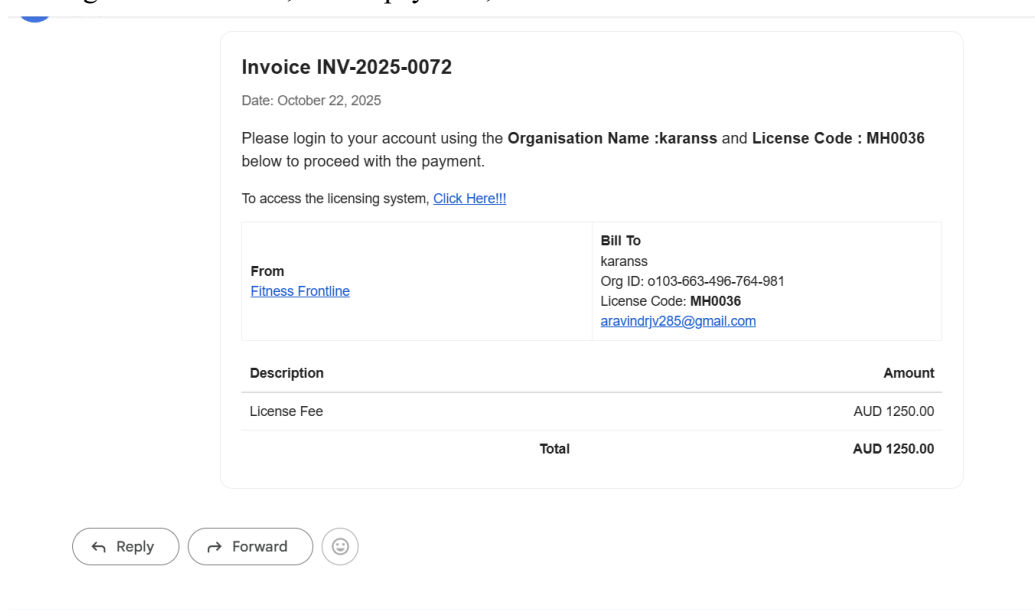

In this page we are providing you with the sample pages of various email notifications. We have email notifications in various steps.

Admin email notifications:

- **Registration Interest:** The admin will receive an email that there is an organisation that showed interest in the resources. The admin receives details of the manager of the organisation and they will have communication with each other via email or phone call.

- **Invoice copy:** The invoice copy is generated when the admin and the manager of the organisation agree to a proper price. The admin can send the invoice after entering the price in the admin invoice page and send user the particular invoice. The invoice contains details like organisation's name, link to payment, license code etc.

- Payment success email : This email is being received by the admin when the client succeeds in his payment.
